# ABOUT RED LIGHT SKYSCRAPER

**Red Light Skyscraper** are an instrumental post-rock band based in the verdant city of Siena (Italy). The project originated in the 2015 thanks to the mesh up of sundry music visions, which is the keystone of a colored and explosive style. Red Light Skyscraper express moods through the oldest form of communication: music. In fact, their aim is to convey emotions and sensations through mostly instrumental compositions, through harmonic and melodic intertwining of sounds chosen with constant research. They have an album, *Still the Echo* (2017), and eight singles (2015-2021), the latest of which *True North*, released on May 7th, 2021.

The band has built a solid live experience: there are performances with Italian alternative rock bands such as “I Ministri” (FLOG-2016), the performance as headliner of the first post rock music festival in Italy (IPM Fest - 2018), and finally, a brief tour in Bristol and London (UK Tour 2019). Red Light Skyscraper are: Jacopo Palumbo (guitar), Carlo Parillo (guitar) and Matteo Vispo (drums).

# PRESS RELEASE

2021

“About *True North*: The listener is dropped on this bittersweet trip, in search of deep inner sensations, completely giving himself to his own destiny.”

2019

PROG

“Take *Matisse*, for instance, a moody multi-dimensional single that they released earlier this year, that throws light and shade intermittently, creating an atmosphere of warm ambience and musical dynamism. It seems that dodgy electricians played their part in the creation of this instrumental wonder, evoking the work of one of the giants of modern art.”

2018

la Repubblica

“A post-rock driven by emotions with a strong narrative impact, which acts like an inner cosmic trip through our soul and thoughts.”

2017

rockit.it

“*Luke* intro vaguely remembers the beautiful "Lazarus" of David Bowie, another signal of sound research able to divert with intelligence toward different models. *Still The Echo* is pleasant to listen to, in which you can feel a thick sound, obtained with effort, work and heart.”
